## Evaporation Pan Auto-Fill Valve Model EP-AFV

P/N: EP-105-AF

The **Model EP-AF Auto-Fill Valve** is an automatic refill system to provide a simple method to automatically refill an evaporation pan at specified times. It consists of an electronic water timer and an automatic float valve. The water timer switches on at a user-specified time, allowing water from an external water source to flow into the pan. The float valve will stop the water flow at approximately 8-1/2" to 9-1/2" depending upon the water pressure. The timer then shuts off until the next programmed time.

### Specifications

- Power:** 2 alkaline "C" batteries
- Operating temperature:** 0-50°C
- Operating humidity:** 0-100%
- Housing:** Aluminum and plastic, waterproof
- Water connection:** Standard garden hose fitting
- Size:** 8" x 6" x 4" approx
- Weight/Shipping:** 4 lbs/7 lbs

### Ordering Information

Requires independent pressurized water source
